COLLECTION

## AN ITALIAN MASTERPIECE

We produce our chocolate according to the same artisanal spirit that inspired **Paul Caffarel** back in **1826**, preserving both timing and methods of a traditional production.

Even today, since **1826**, the finest chocolate and the best selection of hazelnuts are the most important ingredients for **Caffarel** uniqueness.

We only use the best italian hazelnuts freshly selected, picked and roasted together with the finest cocoa beans, offering you the ultimate velvety chocolate experience in an authentic masterpiece.

# WHAT MAKES CAFFAREL SO SPECIAL?

## COCOA, FROM BEAN TO CHOCOLATE

We are among the few ones to produce chocolate starting from cocoa bean. We carefully select, process and blend the best quality cocoa beans from the world's most renowned origins.

We source cocoa coming from Ecuador and Ghana: more delicate and aromatic the first one, stronger and more intense the second one.

Thanks to our expertise and know-how we mix them to obtain irresistible chocolate recipes.

## THE INVENTORS OF THE GIANDUIOTTO

We invented the Gianduiotto in 1865: the first hazelnut-based chocolate, the first wrapped praline ever. Still true to the original recipe, combining 28% Piedmont hazelnuts, premium chocolate and the original and unique production method that gives such a velvety texture. Combining tradition and innovation we have created another masterpiece: Piemonte.

A mouthwatering experience of our velvety Gianduiotto chocolate together with the crunchiness of whole Italian hazelnuts.

## 100% ITALIAN HAZELNUTS

We only use premium hazelnuts freshly selected, picked and roasted in our factory to ensure our high quality standards.

All our hazelnuts are coming from Italy, mainly Piedmont, as they are recognized by experts as the best in the world to be combined with cocoa thanks to their intense flavour and rounded shape.

Mixing them with high quality cocoa beans is an art that we have mastered in over 190 years of history, offering you the ultimate velvety experience of chocolate and hazelnuts.

## ARTISANS IN OUR HEARTS

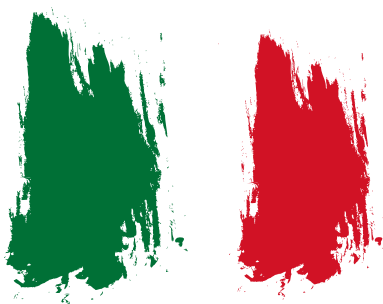

We produce our chocolate according to the same artisan culture that inspired Paul Caffarel back in his lab in 1826.

The unique Gianduiotto production method called "extrusion" is the way to recreate the manual gesture of the chocolate artisans to make you experience that soft and velvety drop.

Our attention to details and the high quality of our packaging make Caffarel a perfect gift!

## PROUD TO BE ITALIAN!

We proudly produce all our products in Luserna San Giovanni, a small Italian town located at the foot of Italian Alps, near Turin. This helps us to keep a strong control over the quality of our products, and take advantage of the expertise and craftsmanship acquired by our people in over 190 years of history in the company. Thanks to our tradition in mixing chocolate and hazelnuts, we also helped this two Italian food excellences to be recognized and appreciated all over the world, making them true ambassadors of the made in Italy.
